ROBERT Q. GRANT

PERSONAL MENTION

Robert Corn of Congress Junction is a business visitor to Phoenix. He is a guest at the Commercial hotel.
C. A. Jordan, a well known attorney of Holbrook, is in the city on a short business trip. He is registered at the Hotel Adams.
Mr. and Mrs. G. L. Landers of Tucson are among the arrivals at the Commercial hotel yesterday.

V. E. Powell came in from Agula yesterday to attend to business interests. He is stopping at the Hotel Adams.

E. H. Thomas of the University of Arizona is a guest at the Jefferson hotel while here on a business trip.

Mr. and Mrs. F. W. Jones of Los Angeles are visiting in the city for a few days. They are stopping at the Commercial hotel while here.

E. A. Newton of Great Falls, Montana, is in the city for a few days. He is a guest at the Hotel Adams.

Rev. J. H. Batten, pastor of the Prescott Congregational church, arrived in the city yesterday and registered at the Jefferson hotel.

TOWN TOPICS

LICENSED TO WED—A marriage license was issued yesterday to Sumpter Weston, 35, and Nellie Moore, 33, both of Phoenix.

COOK GOES EAST—J. B. Cook, of the Armour company, left last evening on a business trip to Chicago and other eastern points.

TO LOS ANGELES—C. S. Kent was a passenger on last evening's train for Los Angeles, where he will look after business interests during the next few days.

SHERIFF HERE—W. G. Dickenson, sheriff of Coconino county, came down from Flagstaff yesterday on a short business trip. He is a guest at the Commercial hotel.

TWO SENTENCED—Juan Parra and Jesus Felix, found guilty of grand larceny, were sentenced to not less than one nor more than five years in the state penitentiary at Florence by Judge Stanford yesterday.

DECREE GRANTED—Charles Strom was granted a divorce yesterday from Mattie Strom on the ground of desertion. The couple were married in South Dakota in 1902 and the husband testified that his wife left him in 1915. Judge Stanford signed the decree.

LUNCH CLUB—The Brotherhood Lunch club will dine today at 12:15 o'clock instead of 12:30 o'clock in order that more time may be given to Dr. Fred Perry's talk. He will talk on what he saw and experienced during his six months at the front in France.

NEW CORPORATIONS—Articles of incorporation were filed yesterday in the office of the state corporation commission by the following: Smith Process Egg company, Arizona Lumber and Planing Mill company, Chino Petroleum Development company.

OWNS "THE EARTH"—Secretary Harry Welch of the Phoenix Chamber of Commerce announces that the March issue of the Santa Fe publication, "The Earth," contains an article under the caption "What River Lands Big Value." Several hundred copies of this issue are now in his possession.

ASKS DECREE—Charging her husband with cruelty and alleging that he threatened to kill her, Mrs. Maude K. Wright yesterday instituted divorce proceedings against Ellis Wright. The right to resume her maiden name, Maude K. Gooch, is requested by the plaintiff. The couple were married in Clinton September, 1915.

PERRY TO SPEAK—Dr. Fred Perry, a special representative of the International Y. M. M. A. War Work council of New York, will speak at the First Methodist church Sunday evening at 7:30 o'clock. Dr. Perry has spent six months in the trenches in France doing special work among the different Y. M. M. A. units. He has a most thrilling story to tell. The public is invited.

MCLEOD ARRESTED—Arrested on a bench warrant, Samuel McLeod will enter a plea before Judge Stanford this morning to the charge of bootlegging. McLeod is alleged to have been arrested with the goods on him. He was taken into custody by the police early in the day when he placed his two suit cases down for a moment's rest. When the bags were opened they were found to contain a quantity of the forbidden beverage.

LECTURES TO THEOSOPHISTS—On Sunday evening Mrs. Constance Tule will lecture to the Theosophists at the lodge rooms in the Creighton building, on the Bahai movement. This movement originated in Persia and was first brought to the attention of the western world at the Parliament of Religions which met at the World's Fair in Chicago. This being an open meeting of the society, anyone interested may attend.

NAVY NEEDS GLASSES—The number of responses to the request for field glasses and binoculars for the use of the United States navy has been surprisingly large. The assistant secretary of the navy, Secretary Harry Welch of the Phoenix Chamber of Commerce: "The navy at present is in urgent need of sextants, quadrants, chronometers and binoculars which are in good repair and over six inches." He also expresses appreciation of the interest that Phoenix people are taking in supplying these glasses.

IS BOUND OVER—W. E. Rowbotham declared that his wife was better able to care for their minor child than he was, when brought before Justice Wheeler yesterday on the charge of failure to provide. Rowbotham stated that he was not physically able to support the child. He said he was earning \$10 a month and expenses as a ranch hand. He and his wife separated some time ago and the child has been supported by the mother, with the help of her sister. Rowbotham was bound over to the superior court.

ON THE BANKS OF THE GILA—Keep in touch with development of the great Casa Grande district by sending for The Bulletin. Subscription by year, six months or three months. \$2.50 per year. Address Ted Healy, Casa Grande, Ariz.—Adv.

COMPETITION IN CAPITOL DESIGN BEING PLANNED
Plans prepared by the successful architect in a contest to be conducted by the commission of state institutions will be adopted for the construction of the addition to the state capital building.
Rules under which this architects' contest is to be conducted are now in course of preparation by the commission. Advertisements, announcing this contest and explaining its provisions, are to be placed in the newspapers of Arizona within a short time. It was announced at the office of the commission yesterday.
The contest will be open to the architects of the entire country. It was stated, but in accordance with the general policy, preference will be given to Arizona architects, all others being equal. Architects who enter the contest will be provided with a general outline which all plans are to follow.
The amount of money at the disposal of the commission for the construction of this addition is \$125,000. The house, at the last session of the state legislature, appropriated \$75,000 for the construction of the addition. This bill was amended to \$125,000 by the senate, which amendment was concurred in by the house. While the exterior of the addition will conform with that of the original capitol building, the interior will be much more elaborate, according to a statement by a member of the commission.
"The commission is desirous of pushing the work of building this addition to the capitol as rapidly as possible," said a member of the commission yesterday. There is great need for this addition as the capitol is badly overcrowded, many of the state departments being cared for in rented quarters.
"But aside from this, there is stated to be an over supply of men in Arizona at present who are skilled in the building trades, and we are anxious to get this capitol work started and assist in taking up the slack in the labor situation."

noon we sat in the park while our boy took his nap, never dreaming that around the city hall was a woman's building with beds for just such tired little fellows. Later in the day we had all the joy of discovery when we found the municipal rest rooms, with separate rooms for mothers, children and laundry. Why, it is just like a little home, and Mrs. Abbot is a perfect hostess. She even urged me to bring my children and leave them with her while I shopped. It is an ideal place for the motorist to clean herself, or the traveler to rest between trains. Why not advertise it more? A placard in the depots and one at each park would help. I was here six months before the founder. I am anxious for every Phoenix resident to enjoy this perfect haven.

A. C. B.

TOURNAMENT GAMES UNCOVER POSSIBLE CHAMPS; NEW LEADER

[Republican A. P. Leased Wire]
CINCINNATI, March 8.—Sixth place in the individuals was the best that was reached by the bowlers rolling at the American Bowling Congress tournament here today. This mark was made by J. Haytson of Cleveland, with a score of 663.

Haytson was the only bowler who invaded the ranks of the ten leaders today.

In the two men events, Oscar Jensen and E. Baker, of Terre Haute, Ind., rolled 1,299, the high score of the day in that class. They established a new record for one game in the tournament to date in the two men class, when they rolled 483 in the first game. J. Neuman and G. Munson of Peoria, with 1,208, made the only other 1,200 score of the day in the doubles.

C. Cramer of Akron, Ohio, was second high in the singles for the day with 650, while Neuman was third with 648. This did not push either Cramer or Neuman among the select ten but Neuman went into second place in the all-events with 1941, just 13 pins behind the leader, H. Steers of Chicago. C. Moses of Toledo went into fourth place in the all-events with 1888.

[Republican A. P. Leased Wire]
LINCOLN, Neb., March 8.—University of Nebraska defeated Kansas Agricultural college, 31 to 23, in a Missouri valley conference basketball game today.

We wish to thank the friends for the kindness they rendered during our son's sickness and death. Also for the many beautiful floral offerings.

MR. AND MRS. O. A. GREGG (Adv.)

JAPAN BIRTH RATE HIGHEST IN WORLD

(New York World)
Judged by the birthrate, Japan has no equal in the world; and the test of a nation's growth is its birthrate, according to Nikaido Yasunori. There is room for argument, he admits, because some biologists insist that inferior organisms show sudden increase or decrease, whereas superior organisms increase and decrease more slowly and regularly.

The average yearly increase in Japan's population between 1909 and 1913 was 14.78 per thousand. No civilized European state can match these figures. Even the German rate between 1909 and 1910 was only 14.2; and this dwindled to 13.6 when the average was taken for the five years from 1905 to 1910. If birth rate be a sure test of future national strength, England is behind Germany, because official reports show that for the decade 1901-1911 the English rate was only 8.7; that of Austria 8.5, while that of France was only 0.6.

The percentage of colonial population of Japan to its home country is only 33.40, while that of England is 85.3, of France 131, of Germany (before the war) 23 and the United States 12. Japan is neither a large nor a small colonial power.

When density of population is considered, Belgium (prior to the invasion) led with 252 inhabitants to the square kilometer. England and Wales, 230; Holland, 171; Japan, 139. In this connection Mr. Nikaido mentions the obvious fact that in some countries large areas of mountainous or unproductive lands exist.

The writer then discusses the sex ratio, although he admits its relative unimportance. In the chief European countries the ratio of men to women is in favor of women, probably due to the emigration of men. Death rate of boys is greater than girls the world over. Not until 1899 was systematic inquiry made regarding the death rate in Japan. The dreadful mortality from tuberculosis was then first recognized. The next greatest enemy of the Japanese is heart disease. Unlike phthisis, which reaches its maximum between the ages of twenty and twenty-six, heart diseases attack the Japanese over forty. Stomach and intestinal disorders, have third place, largely among children. Cancer is confined to the aged. Tuberculosis is being fought by the best medical talent of Japan, and if its ravages can be checked the empire will take its place among the healthiest nations of the world.

In conclusion, the distinguished Japanese says:

"While the present war in Europe may be traced to various causes, there is no denying that the population question lies at the root of the trouble, the object of pan-Germanism being to secure large colonies in Asia for the surplus German population. As all the other powers are equally under the same necessity, it will be very interesting to watch how the belligerents will bring the conflict to an end and what policy they will pursue after the war."

"At this particular moment it is impossible for the Japanese to overlook the fact that the population of their country is very dense, as compared with many other of the leading world states. If the entire area of the country is taken into account, Japan occupies the fourth place in this respect among world powers; and when allowance is made for uninhabitable regions, mountains, rivers, lakes and the like, Japan may be regarded as one of the most densely inhabited countries in the world. With the exception of some cold northern areas, neither Japan proper nor her colonies can long provide accommodation for the future rapid increase of population."

June Caprice at Empress
One of the distinguishing marks of "The Heart of Romance" June Caprice's newest photoplay for William Fox, is the brightness and the crispness of the humor in the production. To raise funds to rescue Elmo Jackson (Miss Caprice) from financial difficulties in which she is involved, Harvey Greyson, (Bernard Thornton), a young writer, cajoles two deputy sheriffs into accepting some stories he has written as security. They are hesitant at first, but he speaks glowingly of the profits from literary work.

"The original manuscript of one poem by Robert Burns," he cries eloquently, "is worth \$10,000—only 200 words. Look at this pile of poems!" He points grandly to a stack of unsalable material of which he is the author. Then he takes some dramas from the drawer. "If they could find a single manuscript of a Shakespeare play they would pay half a million for it. Here are four plays—see how clean and well typewritten. Why gentlemen, Shakespeare never even spelled the same word twice alike! My grammar is perfect."

"The Heart of Romance" is at the Empress theater today.

Do not wait till tomorrow—phone that WANT AD. to The Republican and dispose of, or get what you want.

HOGS, CORN COTTON

Help solve the food and fabric problem by becoming identified financially with the raising of LONG STAPLE EGYPTIAN COTTON, HOGS AND CORN.

We have a special financial proposition to make to people who have \$500.00 or more to invest whereby they are assured of a substantial profit and permanent income.
